Additional information:

My doctor: Tel:

My nurse: Tel:

<p>What should I do if I have taken too much medicine? If you have taken too much Gabapentin Actavis, or if a child has taken the medicine by mistake, you must immediately contact a doctor, hospital staff, pharmacy staff or the Poison Information Centre (dial 112) for advice and risk assessment.</p>	<p>What should I do if I forget to take my medicine? Do not take extra capsules to compensate for a forgotten dose. If you have forgotten to take your medication, ask your doctor how you should resume. This is very important if any length of time has passed since your last dose.</p>
